

SAFe® for Architects

Architecting for continuous value flow with SAFe

With SAFe® 4 Architect Certification

Based on version 4.6 of SAFe

Summary

Attendees can improve collaboration and alignment in a SAFe® Lean-Agile enterprise when they become a SAFe 4 Architect. The SAFe® for Architects course prepares System, Solution, and Enterprise Architects to engage across the organization as effective leaders and change agents who collaboratively deliver architectural solutions. During this three-day course, attendees will explore the roles, responsibilities, and mindset of Agile Architects, and appreciate how to align architecture with business value and drive continuous flow to large systems-of-systems while supporting SAFe program execution.

This course is for senior technical contributors who need to understand the role of System, Solution, and Enterprise Architects in Lean-Agile enterprises. The course is also appropriate for individuals desiring a deeper view into how architecture enables continuous value flow and how architects engage in, and contribute to, a Lean-Agile enterprise.

Learning Goals

To perform the role of a *SAFe® Architect* attendees should be able to:

- Architect using SAFe principles
- Align architecture with business value
- Develop and communicate architecture vision and intent
- Plan architectural runway to enable delivery success
- Architect for continuous delivery and Release on Demand
- Lead and coach architects and team members during Program Increment (PI) Planning and execution
- Provide leadership during a Lean-Agile transformation

Topics Covered

- Exemplifying Lean-Agile architecture
- Architecting for DevOps and Release on Demand
- Aligning architecture with business value
- Developing Solution Vision, Solution Intent, and Roadmaps
- Preparing architecture for Program Increment (PI) Planning
- Coordinating architecture throughout PI Planning
- Supporting Continuous Delivery during PI execution

- Supporting new Strategic Themes and Value Streams
- Leading as an architect during a Lean-Agile transformation

What Attendees Get

The class registration includes:

- Attendee workbooks
- Eligibility to take the SAFe® 4 Architect (ARCH) exam
- One-year membership to the SAFe Community Platform
- Course certificate of completion

Who will benefit?

The following individuals will benefit from this course:

- System, Solution, and Enterprise architects
- Architects in supporting technical disciplines
- Experienced software developers
- Technical managers making architectural decisions
- Product leaders collaborating with architects

Prerequisites

Those who attend this course should be familiar with Agile principles and practices and must have attended at least one SAFe course prior to attending this one.

SAFe Certification Kit

Attendees who pass the certification exam will receive:

- SAFe® 4 Architect certificate
- A SAFe® 4 Architect [digital badge](#) to promote your accomplishment online
- A one-year certified membership as a SAFe® 4 Architect, which includes access to the ARCH Community of Practice
- Access to a variety of learning resources to support certified professionals during their SAFe journey

Annual Renewal

Certifications expire one year from the date the certification is earned.

Renewal fee is \$100
